

VOL WALKER HALL BUILDING SECURITY

General Safety

Any action that obstructs, disrupts, damages or physically interferes with the use and/or security of the facilities and its occupants is prohibited. This includes, but is not limited to, prying or forcing open doors to the building, propping open exit or fire doors and/or denying access or exit from any doorway. The minimum fine and restitution for any of these offenses is \$500.

Fire Safety

It is Arkansas State Law and a policy of the University that when a fire alarm sounds, the building must be evacuated immediately. (Do not wait to see if there is a “real” fire – if there is a fire, seconds matter!)

If you hear an alarm, WALK to the nearest exit and leave the building. DO NOT USE THE ELEVATOR. Once outside, move away from the building to a safe distance, allowing a clear path for emergency vehicles.

Failure to evacuate during an active fire alarm is illegal and leaves you subject to judicial sanctions. Tampering with or disabling smoke and heat detectors is not allowed. The minimum fine and restitution for any of these offenses is \$500.
